RE: APPOINTMENT OF INDEPENDENT TECHNICAL SPECIALISTS – CSA GLOBAL

On Wednesday, 25 June 2020 the Company announced that it had entered into an agreement with ASX-listed Anglo Australian Resources NL to earn up to a 75% interest in the Koongie Park copper/zinc project, situated 25km south-west of Halls Creek in the east Kimberley Region of northern Western Australia.

One of the key aspects of the Company's compliance with the re-quotations requirements of the ASX is the appointment of an independent technical specialist to prepare a report in relation to the Koongie Park project in accordance with the JORC and VALMIN Codes.

The Board of AKN is pleased to report that CSA Global has been appointed to act in this capacity for the Company. CSA Global is an ERM Group Company that has been providing services to its clients across all mineral commodities and regions globally for over 35 years. The CSA Global team of geologists, engineers, mining consultants and data specialists are some of the most experienced and sought-after professionals across the mining industry.

The final independent technical assessment report by CSA Global will be included in a prospectus to be issued in due course by AKN as part of its proposed minimum \$6M capital raising activity.
